

Crestron Mercury™

Make Meetings Better

Full open SIP conference phone

Bluetooth® audio pairs with mobile phones

One-touch room booking and meeting joins

High visibility mute indicator

Crestron Mercury™

Crestron Mercury is the only room solution that supports any video conferencing service. By combining all the must-have conferencing and collaboration tools in one easy-to-use console, Crestron Mercury enables people to work together regardless of location or conferencing service. All others lock you in to a single platform.

Priced to meet tight huddle room budgets, and securely connected to the network for enterprise provisioning and management, Crestron Mercury is easy to deploy, easy to use and easy to manage in every space across an enterprise of any size.

Supports any video conferencing service – others lock you in to only one

Unbelievable microphone & speaker quality

Enterprise provisioning & management

Built-in AirMedia® for wireless presentation

Onscreen room availability and meeting details

Built-in occupancy sensor for usage data & automation

The most complete tabletop meeting solution

Easy to Deploy

Easy to Use

Easy to Manage

Crestron Mercury is perfect for any space, and is thoughtfully designed for enterprise-wide deployment. Crestron Mercury provides all the technology and connectivity you need in one tabletop console. No extra components and cabling means minimal installation time per room.

Dual LAN ports

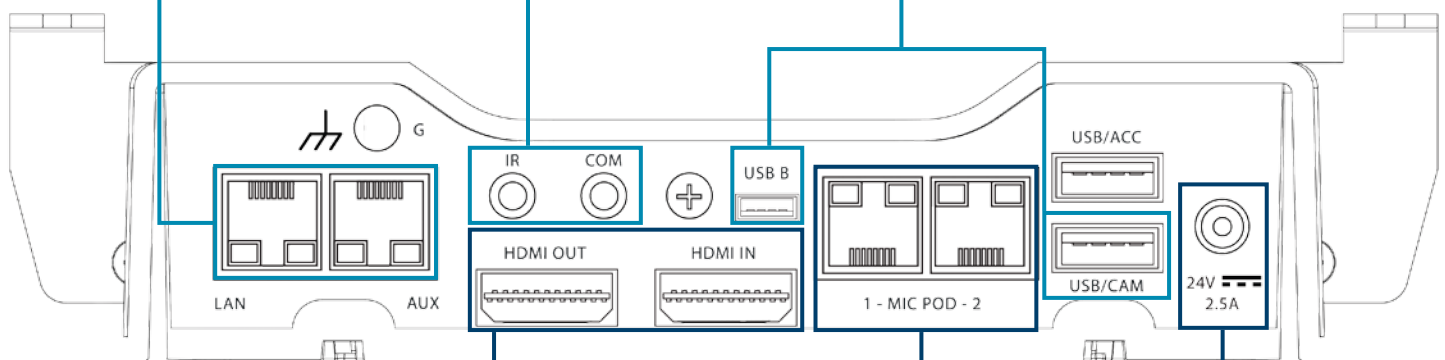

- Enable different services on different physical networks to fit your infrastructure
- Put voice or AirMedia (or both) on a secondary LAN port to keep it segmented

Universal TV control

- Control any TV in your rooms – Crestron supports RS-232, CEC, and IR control while allowing you to add your own drivers

USB Camera In & Out

- Use the room camera rather than the laptop camera for video conferencing so that the far end can see the whole room
- Plus, enjoy superior audio, leveraging the professional built-in speakers and microphone

HDMI® In & Out

- Display video conference screen and presentation content running on your laptop on the large screen TV in the room
- Connect a laptop or other HD source (optional – activate and manage license as needed)

Microphones

- Add up to two Crestron Mercury microphone pods for larger tables – provides convenient remote mute buttons for participants at seats all around the table

Power over Ethernet Plus or 24V power supply

Present

Easy to Deploy

Easy to Use

Easy to Manage

The built-in Crestron AirMedia gateway enables secure, wireless presentation on the room display from a laptop, smartphone, or tablet; or connect directly via HDMI.

Call

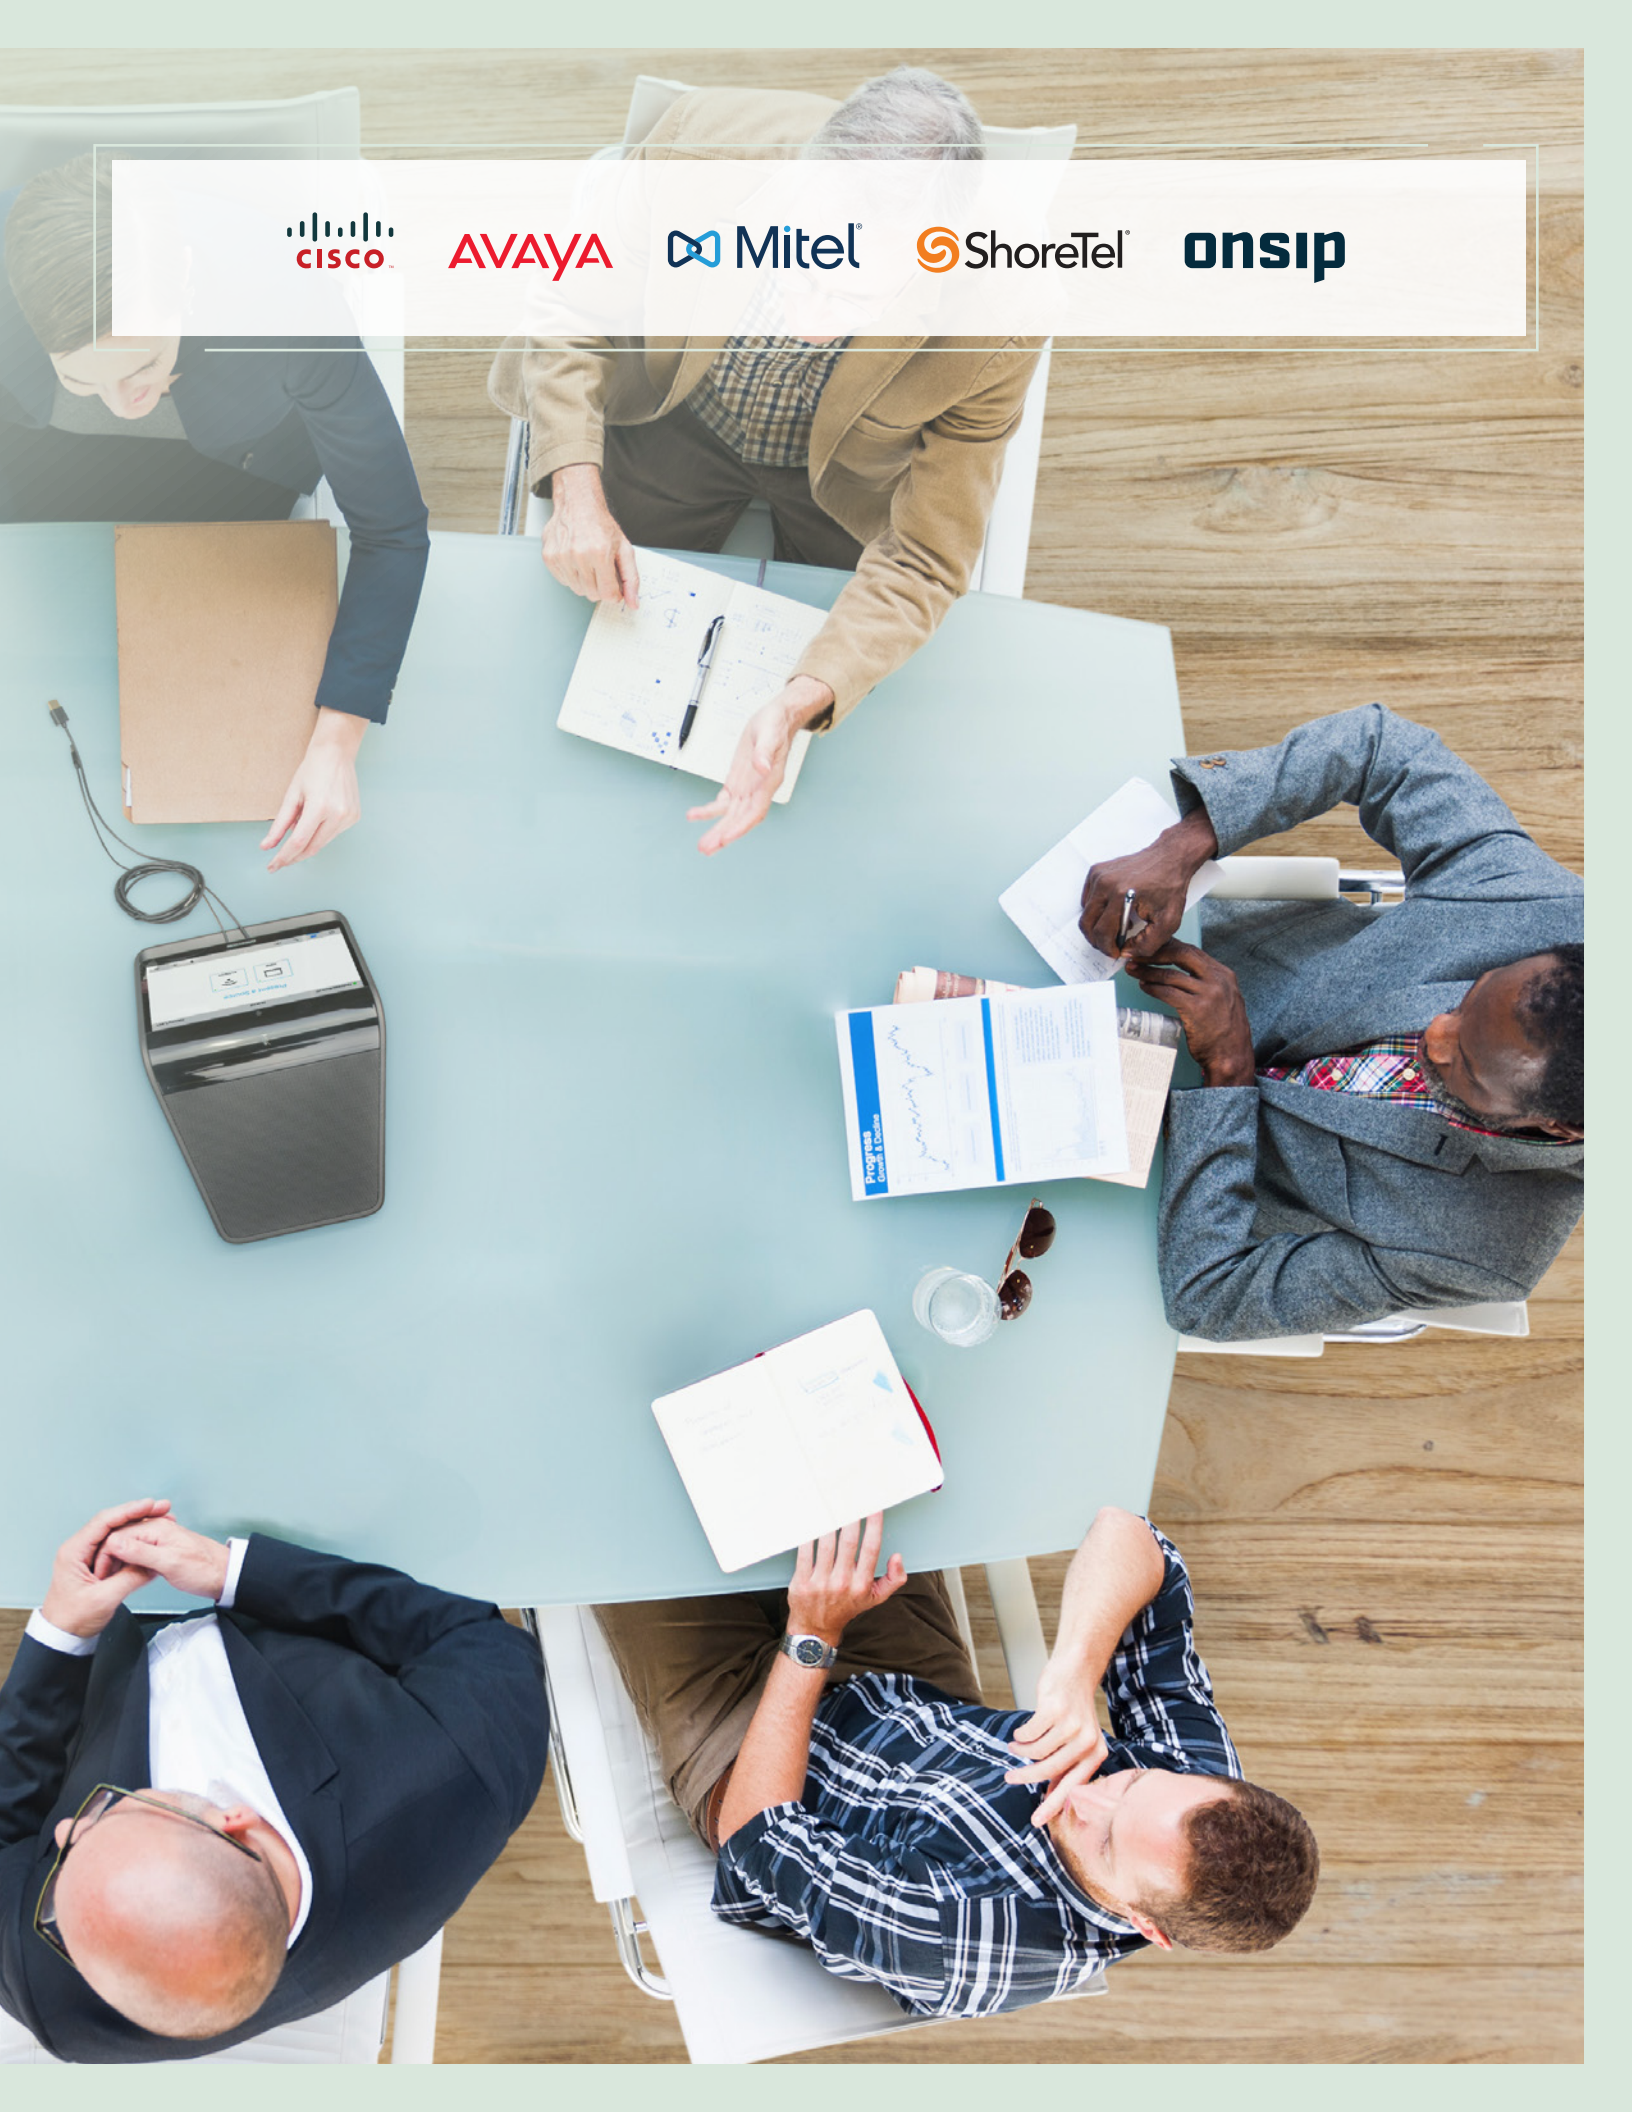

Easy to Deploy

Easy to Use

Easy to Manage

Leverage the precision engineered speaker and microphones inside Crestron Mercury to enjoy phone calls that sound like everyone is in the same room. Use the Bluetooth audio to pair with mobile phones, or the built-in full open SIP conference phone to make calls.

Collaborate

Easy to Deploy

Easy to Use

Easy to Manage

Use any soft phone, video conferencing, or UC service, such as Skype® for Business, Cisco WebEx®, GotoMeeting®, or Slack® to collaborate right from your laptop by simply connecting to Crestron Mercury. All other solutions lock you in to just one platform. Crestron Mercury can also be configured to run native Skype for Business or the Zoom UX, without a laptop.

Manage

Easy to Deploy

Easy to Use

Easy to Manage

Crestron Mercury consoles are easy to provision and manage, and leverage standard network security protocols. A built-in occupancy sensor supports energy-saving automation as well as collection of room-usage data.

Schedule

Easy to Deploy

Easy to Use

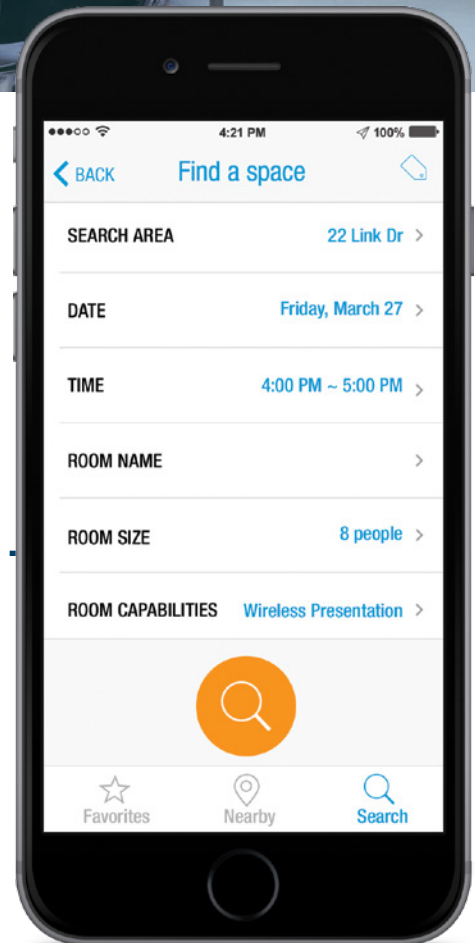

Easy to Manage

Crestron Mercury connects directly with Microsoft Exchange Server® or Crestron Fusion® software to make room scheduling easy. The built-in graphics engine generates an onscreen display of the room calendar and simple instructions for starting a meeting.

The native PinPoint™ Proximity Beacon adds additional convenience, enabling mobile room searching/scheduling using the PinPoint app.
