

THE NEXT LEVEL OF IPAD CHARGING + MOUNTING.

I PORT LUXE is the premium wireless charging and mounting system for iPad designed for charging on table-top or on-wall. The LUXE Case is a thin, symmetrical, aluminum enclosure that protects iPad and grants you complete access to all iPad buttons, microphones, cameras and speakers.

LUXE BaseStation allows iPad to charge wirelessly and mount via embedded magnets with an adjustable mounting joint that facilitates a variety of orientations. LUXE WallStation is the smallest, most elegant iPad wall mount and made of a singular segment of aluminum.

With its minimalist design and premium finishes, I PORT LUXE blends iPad into the design of any space.
