

B&H PC Pro 4K AI

P/N: BHC-410/F

Laia B&H PC Pro 4K AI, designed to be the most innovative camera for personal and advanced use with Artificial Intelligence and 4K quality. The quality of the 4K CMOS sensor makes it show an image with the highest quality in any environment, in low light, contrast or direct light conditions. Compatible with all video conferencing systems, the perfect choice for video meetings.

Main characteristics

Audio range 5 meters

4K

4k quality image

4X digital zoom

2 microphones

USB-C connector

PC Pro 4K AI Specifications: P/N: BHC-410/F

Camera

Image sensor: CMOS. 1/2,8"

Resolution: 3840 x 2160 Pixels

Number of Pixels: 8.29 Million

Video output format: MJPEG, YUY2

Focus: Fixed

Aperture: 2.2±5%

Image color: 12 Bit

Image adjustments: Brightness, color, saturation, contrast, sharpness.

Viewing angle (horizontal): 83°+-3°

AIC: Auto framing (SmartFrame) based on face detection.

Supported resolutions: 3840*2160@30fps, 1920*1080@30fps, 640*480@30fps.

Microphone

Number of microphones: 2

S/N ratio: ≥60dB

Sensitivity: -38±3dB (0dB=1V/Pa,1 KHz).

Audio range: 5 meters

Horizontal voice pickup : 180°

Communication mode: Full duplex

Audio processing: Automatic gain control.

Other parameters

Connector: USB-C

Power supply: 5V/500mA

Operating systems: Windows (8,10, 11) / Linux / Mac OS / Android.

Dimensions (camera only): 44 x 44 x 38 mm

Weight (camera only): 81 gr
