

Fixed frame

Acoustically transparent

Perfect sound and image.

Benefiting from a quality of manufacturing on par with Lumene's fixed screens, this acoustically transparent version of the Movie Palace Premium screen uses a high-end woven canvas for impeccable results in terms of both sound and image.

Easy and quick to install, this screen's fixed frame features a high-quality acoustically transparent and elastic canvas. Its exclusive technology provides a perfect image, pronounced contrast, as well as excellent acoustic transparency. This canvas will allow you to place speakers behind the screen, just like in a true cinema. It guarantees linear frequency response with no compensation.

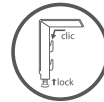

4K compatible.

Perfect tension

Easy to install

Fast and clipping system

Velvet frame

SPECIFICATIONS

Screen material

High quality LUMENE screen material
PVC WMat
Ultra white projection surface
Optimal acoustic behavior : almost nil diffraction, flat frequency response, no equalization needed
Gain 1.0
Directivity 150°
No shine point
Treatments : anti-yellowing, anti-mold
Black borders

Frame

Aluminium frame
Black velvet finish
Easy to install
Perfect and lasting tension
Safe clipping system

Warranty

2 years

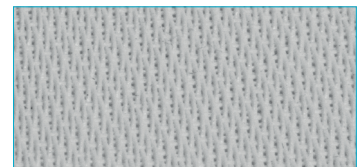

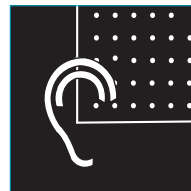

DETAILS

Installation

The acoustically transparent fabric is not totally opaque. We therefore suggest you to place it before a dark background. The speakers should ideally be installed so that the tweeter drivers are placed in the middle of the screen (or slightly above if there are several ranges of seats).

Technology

Acoustic is different from standard perforated or micro perforated PVC fabrics. Its specific structure allows a crossing of all the frequencies with no diffraction. As a result, the frequency response is linear, lossless in the high frequencies and the signal is much more precise than with usual screen materials.
