# STOCKHOLM 700

Vinyl Furniture

## DIMENSIONS

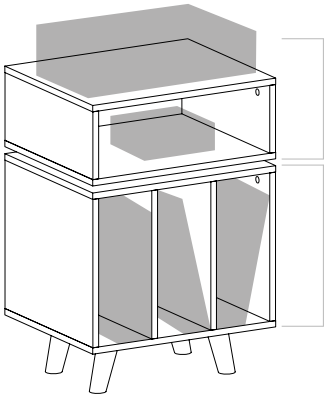

## DESCRIPTION

The Stockholm 700 vinyl cabinet has been designed to offer a complete and elegant solution for record lovers.

Its lower shelf has storage divided into three vertical sections, ideal for easily organising up to 80 vinyl records. The upper shelf offers a large space dedicated to electronics, with a height of 160 mm and a width of 450 mm, perfectly suited to most amplifiers and pre-amplifiers on the market. The top shelf is designed to accommodate a turntable and, together with the rest of the unit, forms an all-in-one solution that combines storage, electronics and playback in a minimal space.

The unit is available in two finishes: white and light oak, or black and walnut.
