

NorStone

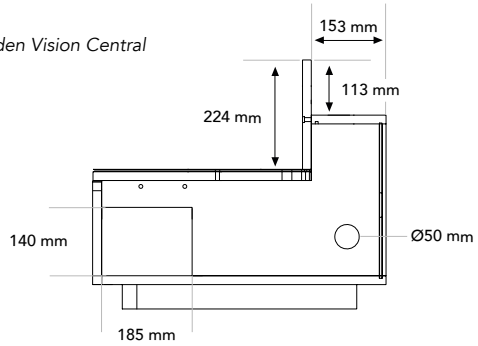

Eden vision 200

Audiovisual furniture

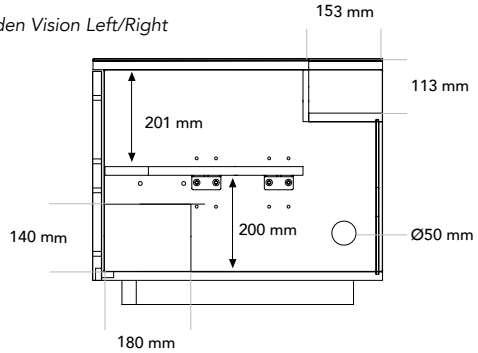

DIMENSIONS

*Eden Vision Central

*Eden Vision Left/Right

DESCRIPTION

The Norstone Eden Vision transforms your living room into a real cinema. Designed to accommodate the UST projector and the Lumene Eden Extra Bright 200C screen, it enhances every viewing experience: the niche integrates the projector, the screen disappears completely after use, and the acoustic storage compartments discreetly accommodate your speakers or soundbar.

With its optional motorised tray, the projector adjusts and memorises its ideal position for a perfect image every time it is used.

- **Complete Cinema Experience:** Designed specifically for Lumene's Eden Extra Bright UST 200C screen.
- **Stage Design :** The Lumene Eden Extra Bright 200C screen disappears completely when stored away for seamless integration.
- **Customised for UST:** A dedicated niche that can accommodate the vast majority of ultra-short-throw projectors on the market, the Motorised Slider option offers automatic and ultra-precise projector positioning.
- **Optimal Sound Integration:** Side and central storage compartments equipped with gas-lift doors and acoustic fabric, allowing for the integration of speakers and/or a soundbar.
