

NorStone

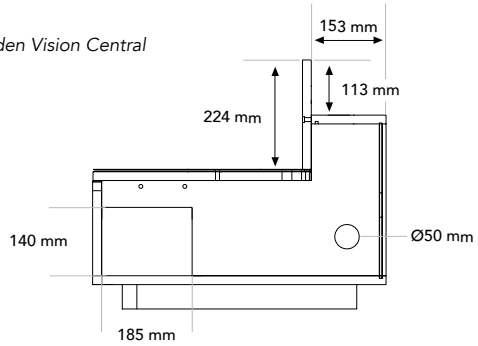

Eden vision 270

Audiovisual furniture

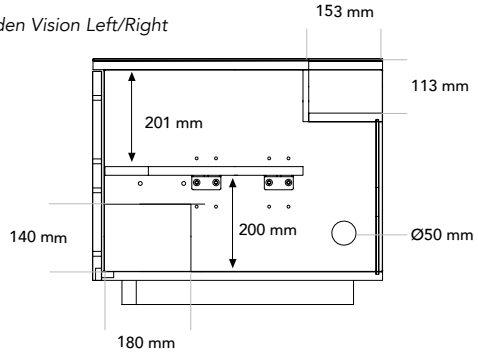

DIMENSIONS

*Eden Vision Central

*Eden Vision Left/Right

DESCRIPTION

The Norstone Eden Vision transforms your living room into a real cinema. Designed to accommodate the UST projector and the Lumene Eden Extra Bright 270C screen, it enhances every viewing experience: the niche integrates the projector, the screen disappears completely after use, and the acoustic storage compartments discreetly accommodate your speakers or soundbar.

With its optional motorised tray, the projector adjusts and memorises its ideal position for a perfect image every time it is used.

- **Complete Cinema Experience:** Designed specifically for Lumene's Eden Extra Bright UST 270C screen.
- **Stage Design:** The Lumene Eden Extra Bright 270C screen disappears completely when stored away for seamless integration.
- **Customised for UST:** A dedicated niche that can accommodate the vast majority of ultra-short-throw projectors on the market, the Motorised Slider option offers automatic and ultra-precise projector positioning.
- **Optimal Sound Integration:** Side and central storage compartments equipped with gas-lift doors and acoustic fabric, allowing for the integration of speakers and/or a soundbar.

DESIGN
Structure: *high-strength melamine*
Upper tray: *black tempered glass*
Front elevation: *black acoustic fabric*

MAXIMUM LOAD
50 kg

Écran motorisé de sol EDEN Extra Bright UST, une toile de projection innovante, dédiée à la videoprojection à Ultra-courte focal, pour une liberté d'installation maximale.

Équipe de la dernière technologie ALR (Ambient Light rejection), l'écran motorisé de sol EDEN vous permet d'obtenir une large toile de projection dans n'importe quelle pièce, avec un projecteur moderne à ultra-courte focale.

Cette technologie vous offre un meilleur contraste d'image en réduisant la réflexion de la lumière ambiante. Rétractable grâce à ses articulations en aluminium, l'écran EDEN Extra Bright UST disparaît entièrement dans son caisson lorsqu'il n'est pas utilisé. Il vous permettra d'avoir une grande image dans n'importe quelle pièce seulement quand vous le désirez.

L'expérience Cinéma, sans contrainte, où vous voulez...

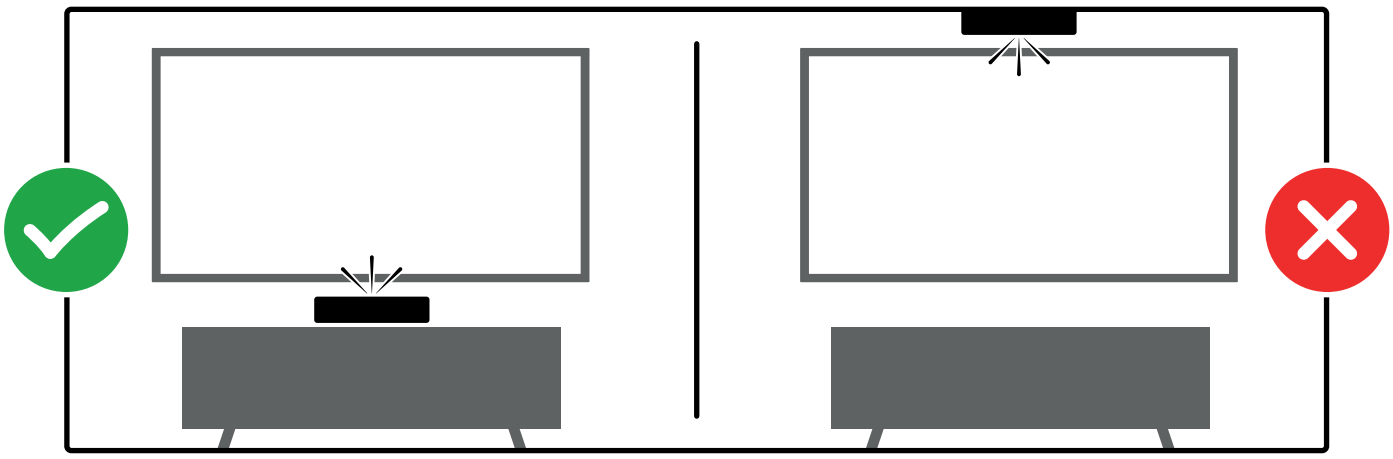

EDEN Extra bright UST motorised floor screen, an innovative projection screen dedicated to Ultra-short focal video projection, for maximum installation freedom.

Equipped with the latest ALR (Ambient Light rejection) technology, the EDEN motorised floor screen allows you to achieve a large projection screen in any room, with a modern ultra-short throw projector.

This technology gives you better image contrast by reducing the reflection of ambient light. Retractable thanks to its aluminium joints, the EDEN Extra Bright UST screen disappears entirely into its housing when not in use. It will allow you to have a great picture in any room only when you want it.

The Cinema experience, without constraints, wherever you want...

INFORMATION
INFORMATION

L'écran Eden Extra Bright UST est doté de la technologie ALR (Ambient Light Rejecting), spécialement conçus pour les vidéoprojecteurs à ultra-courte focale. Pour un fonctionnement optimal, le projecteur doit impérativement être placé en bas de l'écran. Toute installation avec un projecteur situé au-dessus de l'écran entraînera une dégradation significative de l'image, voire une incompatibilité totale avec la technologie ALR.

The Eden Extra Bright UST *screen features ALR (Ambient Light Rejecting) technology, specially designed for ultra-short-throw projectors. For optimum performance, the projector must be positioned at the bottom of the screen. Any installation with a projector above the screen will result in significant image degradation, or even total incompatibility with ALR technology.*

CARACTÉRISTIQUES
SPECIFICATIONS

Toile
Écran de haute qualité signé LUMENE
Surface de projection : ALR (Rejet de Lumière Ambiante)
100x plus lumineux qu'un écran classique
Gain de 0.5
Directivité 140°
