

Synergy™ 10.1" All-In-One Touchpad Controller

SYN-TOUCH10 V2

WyreStorm - Powerful. Reliable.

Introduction

The SYN-TOUCH10 is a single-room IP control touchpad, compatible with our Synergy and Apollo conferencing solutions, as well as many other 3rd party devices found within a presentation/meeting room. We did the heavy lifting by providing prebuilt templates for WyreStorm products. Create up to 4 different layouts with multiple button arrangements and the ability to add virtually an endless number of devices! Every detail is up to you; split, arrange, and customize each scene down to the button to fit your needs. Includes a wall mount bracket and tabletop stand.

Key Features

- Setup and control all in-room IP devices with a streamline and intuitive setup wizard.
- Create up to 4 different layouts with multiple button arrangements and the ability to add virtually an endless number of devices.
- Ability to accept both ASCII and hexadecimal commands.
- PoE+ means only one cable is needed to both power the touchpad and send data, making installation quick and simple.
- Prebuilt templates for WyreStorm products provided.
- Standard VESA 75 tabletop stand and US, UK and EU compatible wall mount included.
