

Flat Panel Ceiling Lifts—FPLCV2-90+R+LM+LOCK

Sensitive to the changes in market needs, Unitech Systems transforms the customized solutions for big TVs in a new standard model of TV ceiling lift: the new FPLCV2+R+LM+LOCK-90, suitable for TVs between 75"-90". Silent, safe & ready to install, this new heavy duty ceiling lift, offers a complete set of functions:

- √ vertical lowering motion
- √ bi-directional rotation $\pm 180^\circ$
- √ ensuring maximum safety in closed position
- √ optional electric tilt ability up to 20degrees for the TV

The lift's solid & firm construction provides maximum duration in time & safety in installation, in addition to its excellent utility!
