

WyreStorm NetworkHD 400 Series 4K AV over IP JPEG 2000 Encoder and Decoder

NHD-400-E-TX | NHD-400-E-RX

Specification Sheet

WyreStorm - Powerful. Reliable. Simple.

Introduction

The NetworkHD 400 E Series offers stunning 4K HDR video, multichannel audio support and 4K/2K scaling to seamlessly handle mixed resolution HDMI sources for matrix and video wall functionality. The reduced cost Type E version removes some control ports but retains the 400 Series core features. Featuring incredible low latency the 400 Series is the ideal AV over IP solution for systems where high quality and low delay are key requirements, making it perfect for demanding commercial applications.

The NetworkHD 400 E Series is intended for use with any 400 Series JPEG 2000 encoder or decoder (sold separately) to provide a complete end-to-end video distribution system. When used in conjunction with the NHD-000-CTL system controller complete control integration is quick and simple.

Key Features

- Stunning visually lossless 4K UHD video with HDR over 1GbE / IP networks
- Ultra-low end-to-end latency – only a single video frame (16ms at 60fps)
- Multi-channel audio including DTS:X & Dolby ATMOS supported over HDMI
- Image scaling with 400 Series decoders - use a mix of 4K & 1080p displays throughout an installation
- Easy network set-up using standard Layer 2 or Layer 3 managed switches
- Hugely scalable I/O, utilizing multicast technology
- Live video unicast preview streams for use with NetworkHD Touch or a custom control UI
- Powerful audio matrix functionality - route audio separately from video to any decoder
- CEC One-Touch Play & Standby, IR or RS-232 control of connected devices using 400 Series decoder
- 400 Series supports up to 16x16 video walls with image scaling, bezel compensation and rotation
- 400 Series supports custom “No Source” idle image upload for branded down time
- Support all SD, HD and UHD video formats - including interlaced content
- Batch firmware update and batch settings functions offers a massive reduction on installation times
- Custom EDID management with import/export
- HDCP 2.2 Compliant
- IEEE 802.3af PoE compliant PD
- Compatible with NHD-000-RACK4 rack mounting kit (brackets included with encoder)
