**When standard doesn't fit, we make it for you.  
From catalogue solutions to fully bespoke designs.**

In a price-driven market, quality + customisation + service make the difference.

Custom solutions help you win projects and protect margin.

Made in Barcelona with 100% European components.

No minimum series — from a single unit.

**CUSTOMISATION  
LEVELS**

# Customization levels

## Catalogue product customisation

- Modular adaptation of existing products by:
  - Combining components (motors, wheels, etc.)
  - Selecting VESA options.
  - Choosing finishes or colors.
- Efficient solution for large-scale public education tenders.

## Private label solutions

- Fully brand catalogue products to create unique market references.
- Laser-engraved logo, proprietary product naming, custom labels, packaging and installation manuals.
- Strengthens brand perception positioning your company as a larger one
- Available from as few as 5pcs.

## Fully bespoke design

- Custom-designed products developed from scratch based on your technical brief.
- 100% customization: motor travel, dimensions, colors and finishes.
- Ideal for exclusive projects or large public education tenders.
